

Curtin Springs

Outback hospitality –

The way you wish it could be all the time.

Curtin Springs is a working cattle station and wayside inn located on the Lasseter Hwy just 85km east of Yulara, at the edge of Ayers Rock/Olgas National Park.

The Severin family extend the unique hospitality that has made them a legend in the NT. The family took over in 1956 and still operate the station today. They installed petrol pumps and a small store to help Len Tuit start tourism in the Ayres Rock area. Looking at the area now it's hard to believe that the Severins only saw 6 people in their first year here and they have watched the tourism industry grow ever since.

The Severin family and their staff offer you a real taste of the outback, with modern facilities and an atmosphere that people come back for.

We can offer a variety of options for tour groups.

- Breakfast, lunch, dinner or morning/afternoon tea.
- Dinner, bed and breakfast
- Bed only, provide your own meals around the free BBQ area.

Tours of the station, the Amadeus Salt Lake Chain and Mt Conner (the Forgotten Wonder) are available.

We will do our best to accommodate your specific tour needs.

An affordable option - so base yourself at Curtin Springs and explore the Ayers Rock and Kings Canyon areas.
